DETAILED ACTION

Allowable Subject Matter

1. Claims 1-5, 7-11 are allowed.

The following is an examiner's statement of reasons for allowance: claims 1-5, 7-11 have been found to be novel and the inventive because prior art of record fails to show or teach a method of determining if it is able to satisfy the one or more conditions specified in the request message and if so, decrementing the token value within the received request message, and identifying itself to the request originating computer, and then determining if the, possibly decremented, token value in the received request message indicates that at least one further computer device is required to be located and if so, forwarding-of one or more daughter messages on to a subsequent computer or computers within the computer network unless a restriction criterion has been met, wherein each daughter message includes said one or more specified conditions and a token value such that the token value if only one daughter message is forwarded, or the sum of the token values of the daughter messages if more than one daughter message is forwarded, equals the, possibly decremented, token value of the received request message , the application unit as directly recited in independent claims.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure Bruck et al. (Patent No: 6801949).
